PERMANENT MAKE UP

ENHANCING BROWS

POWER BROWS / COMBINATION BROWS

£375

A more dramatic, full eyebrow design incorporating both shading and hair-strokes using a bespoke method of machine and microblading.

3D HAIRSTROKE BROWS

£350

I'll mimic tiny eyebrow hairs for a more natural, subtle look.

NANOBLADING

£395

A beautiful detailed, natural fluffy looking brow using an intricate and delicate method of machine tattooing, 1 pass technique using a superfine needle.

MICROBLADING

£350

Using a hand held tool microblading is another method of permanent make up in which a small handheld tool made of several tiny needles is used to add pigment to the skin. Microblading is typically used on brows that want very fine strokes and can be combined with my other machine technique too

ENHANCING EYES

SHADED EYELINER

£400

A combination of eyeliner and a beautifully softened edge giving a subtle, smokey effect when healed.

EYELINER

£350

Creating definition along the lash line with the addition of a small flick to the outside of the eye, giving you a perfect made-up look all day long.

LASH ENHANCEMENT

£300

I emphasise the lash line between your lashes, giving a beautiful, delicate outline to your eyes.

ENHANCING LIPS

STRONG FULL LIP BLUSH

£400

For the girl who loves a full-on lipstick look! Choose from a more natural shade or a sexy striking colour.

SOFT BLENDED LIP BLUSH

£350

I blend your lip outline into a beautiful blush that gives a soft and natural look.

LIP LINER (Only Suitable On Medical Tattooing And Correction Work)

£250

Emphasising the lip outline to create more balanced and defined lips.

EXTRAS

BEAUTY SPOT

£50

(if having any other permanent make up treatment).

TOP-UP COLOUR BOOSTS

6-11 MONTHS

£150

12-18 MONTHS

£175

18 MONTHS+

From £200

A discount of £50 will be given if having two full price treatments on the same day; £100 if having three treatments.

Complimentary consultations are always available.

A £50 non-refundable deposit is required to secure all bookings.

Any appointment changes less than 7 days in advance will be subject to a £20 admin fee.

Any follow up appointment cancellation will result in forfeiting the inclusive priced treatment

ADVANCED FACIALS

My whole philosophy of a successful and more results driven facial is that it needs to be bespoke to you not just a 'one size fits all' approach. I have chosen the machines and techniques I use because of their results they give, and the combination of the methods I personalize together for you. So here's a guide to the different techniques and their benefits, then some suggestions on how I put these all together for a facial that is as bespoke as you are!

SKINSTORM BY CRYSTAL CLEAR

SKINSTORM simply does it ALL! Expertly cleanses, attacks acne, peels and resurfaces, infuses a powerful cocktail of skin-loving ingredients, firms, hydrates, fills like a trip to your aesthetician and renews like new. Think that's too much to ask?! Not anymore.

There's a skincare storm coming that harnesses the power of nature's elements to deliver dramatic and drastic results. Get ready to take your existing skincare routine nuclear with our most intensive and indulgent all in one treatment. SKINSTORM is THE bespoke luxury treatment for your skin.

PRP VAMPIRE FACIAL

The Vampire Facelift is a technique involving a collection of your own blood and separating its components through a centrifuge that turns your platelets into plasma. We then inject your plasma into the targeted area which will help to stimulate new cell growth and stimulate tissue regeneration which will improve your complexion and skin texture. We then micro-needle the rest of the plasma into your full face which is great for skin hydration and restoring a youthful and healthy glow.

DERMAPLANING / MICRODERMABRASION

The newest celebrity loving facial treatment that not only removes excess dead skin cells but 'de fuzzes' that peachy facial hair at the same time leaving skin ultra-smooth. Dermaplaning also allows for greater penetration of skincare products and creates a flawless canvas for makeup to glide on smoothly so it takes on an "airbrushed" finish!, this should not be overdone as it could cause the skin to become oversensitised. Wondering if you should try dermaplaning versus microdermabrasion? They are both forms of physical exfoliation, but the methods are very different. Microdermabrasion sands and suctions dead skin cells, which also helps to uproot clogged pores around the nose, mouth and chin. Dermaplaning safely scrapes off the top layer of skin, so it is well suited for drier skin types and anyone who wants to get rid of peach fuzz.

NANO CURRENT LIFTING

A-Lift is a highly effective, non-invasive treatment that uses nano-current technology to firm and rejuvenate your skin, working with your own frequency creating a personalised treatment that is unique to you. A-Lift has the power to deliver visible results after just one treatment, yet it's as gentle and relaxing as a facial. Alternatively a course of treatments twice a week would dramatically improve the following:

Fine lines and wrinkles • Dark circles and dull skin • Muscle tone, firmness and lift
Skin glow and radiance • Cell circulation (which boosts youthful appearance)

PRICES

A LIFT & OXYGEN THERAPY

A lift – nanocurrent facial Dermaplaning	£95
A lift and cryo oxygen	£95

• All facials include the relevant complimentary led light therapy session

DERMALUX LED LIGHT THERAPY

What is Dermalux LED Light Therapy?

Dermalux is a form of light therapy – also known as phototherapy. This means it delivers light to the skin in therapeutic doses to stimulate rejuvenation. Dermalux uses LED (light-emitting diode) technology, at a variety of different wavelengths. The effects are clinically proven to treat a range of skin concerns, including reducing the signs and helping to correct environmental damage. It also helps treat inflammatory conditions such as Rosacea and acne, and Psoriasis and dermatitis.

How does it work? The LED phototherapy stimulates collagen production, destroys the bacteria that cause acne, reduces inflammation, and also increases hydration. This helps to improve the skin's texture and clarity. You may already be aware of some forms of light therapy. Newborn babies with jaundice are laid under a special lamp to help treat the condition, for example. Or you might have seen the special lamps used to help with seasonal affective disorder (SAD)? The health benefits of light therapy are many and varied!

Is Dermalux for me? As well as being clinically proven, Dermalux is also a totally non-invasive treatment. It is pain free and safe for all skin types, and best of all: no downtime! Dermalux can also be integrated with my other skin treatments to work in synergy. I can advise you on the best way to combine treatments for your skin's needs.

DERMALUX PRICES

Clinical therapy session	£50
Course of 5	£225
Course of 10	£400

- For facial clients a discount of 20% is given for extra sessions

F I L L E R S

As an aesthetic professional I truly believe in a softer, more natural approach to aesthetic procedures, therefore I have an ethos of 'you can always add but it's harder to take away'. With this in mind my Lip treatments are carefully given with a full in depth consultation prior and me wanting you to look beautiful and not just 'on trend'.

Using the highest quality, best products you can rest assured you are in safe hands.

DERMAL FACE FILLERS

What are they? As we age, our skin changes and we lose hydration as well as facial fat. Our natural skin elasticity reduces due to loss of collagen and our skin becoming more sensitised. Because of these natural skin changes, over time the natural volume and plumpness of your youthful skin begins to diminish, and wrinkles and folds start to form. Skin can appear tired looking and saggy due to lack of volume.

Dermal fillers are a safe and effective procedure to help smooth out problem areas and tackle signs of skin ageing.

Suitable for areas of the face to be discussed at your consultation

1 ml	£ 2 2 5
1.5 ml	£ 3 5 0
Lower facelift package (3ml)	£ 6 0 0
Ultra face lift package (4ml)	£ 7 5 0

LIP ENHANCEMENTS

Lip Fillers, also known as Lip Augmentation or Lip Injections, are such a popular treatment which can address many lip concerns such as:

- Creates bigger lips / increases fullness of thin lips.
- Enhances lip definition
- Creates a more defined smile
- Give the mouth area a youthful, rejuvenated appearance

Half ml	£ 1 7 5
1 ml	£ 2 2 5
1.5 ml	£ 3 5 0

Any injections over 1.5ml must be prior agreed with Lesley in her professional opinion to ensure safe practice.

INJECTABLES

When the muscles in our face move, a message is sent from the brain via nerves to the muscles, instructing them to contract. Anti-wrinkle injectables also known as Botox, are a natural protein that work by interrupting this process, leaving those muscles unable to crease the skin, relaxing the appearance of lines and wrinkles.

The injected muscle will no longer be able to contract as tightly, causing wrinkles to relax and soften. Perfect for deep creases in the forehead, crows feet as well as smoker's lines and skin ageing of the neck.

ANTI-WRINKLE INJECTIONS (AKA BOTOX)

When the muscles in our face move, a message is sent from the brain via nerves to the muscles, instructing them to contract.

Anti-wrinkle injectables also known as Botox, are a natural protein that work by interrupting this process, leaving those muscles unable to crease the skin, relaxing the appearance of lines and wrinkles.

The injected muscle will no longer be able to contract as tightly, causing wrinkles to relax and soften. Perfect for deep creases in the forehead, crows feet as well as smoker's lines and skin ageing of the neck.

Does it hurt?

Injected using a fine needle into specific muscles, the procedure takes approximately 15 minutes. Using several ultra fine needles and a gentle injection technique ensures minimal discomfort to my client.

A full consultation and health assessment is required prior to any treatment.

PRICES

1 Area	£140
2 Areas	£180
3 Areas	£220
4 Areas	£360
Hyperhidrosis (Excessive sweating)	from £400
Masseteric Hypertrophy (Teeth Grinding)	£300

* all prices include a check up appointment between 10-14 days after initial treatment

B12 AND VITAMIN INJECTIONS

B12 is known to increase metabolism and helps the body better absorb nutrients it needs through digestive functioning.

Unlike other forms of supplements, vitamin injections go straight to work and only contain the ingredients you want and need.

Many people may have been diagnosed with Vitamin B12 deficiency and therefore require bi-monthly injections or otherwise advised by their GP. If you are in doubt you may contact your local GP for a blood test.

Vitamin C is an essential nutrient in our diet. It has many important roles our body's immune function, including:

- Wound healing
- Preventing damage to cells
- Building collagen
- Producing chemical messengers called neurotransmitters

These injections are a great boost to your immune system

B12 Injections

£25

Vitamin C+B complex

£50

PROPHILO

What is it?

Prophilo is an injectable anti-ageing treatment made from Hyaluronic acid to address skin that is losing its elasticity and firmness with age. It is injected just below the surface of the skin where it disperses quickly and reacts with the tissue to instantly boost hydration. Prophilo is the first BDDE-free stabilised injectable Hyaluronic acid (HA) based product for treating skin laxity. With one of the highest concentrations of HA on the market, it is not only boosting and hydrating the skin, but also remodels the ageing and sagging tissue.

How does it work?

Prophilo stimulates the production of new collagen in the skin by a slow release of Hyaluronic acid.

The Treatment Protocol

Results are visible after only 2 sessions 4-6 weeks apart. Treatment results last for up to six months. Prophilo can work as a treatment on its own or in combination with other cosmetic treatments.

PRICES

2 Treatments (4 Weeks Apart)

£450

Single maintenance treatment

£250

AQUALYX FAT LOSS INJECTIONS

Those annoying small pockets of fat under your chin, around your thighs, on your tummy or under your bra strap can now be reduced without surgery – thanks to revolutionary fat-dissolving injections.

Aqualyx®, developed for the non-surgical reduction of localised fat under the skin is a gel-based aqueous solution, which dissolves fat and is biocompatible and biodegradable.

Aqualyx® works by causing the dissolution of fat cells. The body then expels the released fatty acids naturally.

From £150 (Price on consultation)

INJECTABLE SKIN BOOSTERS

Injectable skin boosters improve the hydration and density of the skin, diminish fine lines and give the complexion a youthful glow. The perfect addition to regular facials adding an extra boost.

The procedure is safe, effective and non-permanent.

Requiring 3 sessions 10 days apart these boosters are ideal around the eyes, neck, face and hands and are also good for sun damaged skin and acne scarring.

SINGLE SESSION

£175

COURSE OF 3

£400

(all include deep cleanse and mini microdermabrasion)

LASER HAIR REMOVAL

Utilising the latest evolution in Laser & IPL technologies – SHR is the latest method for the removal of unwanted hair, superfast, safe and pain free! A hair no more treatment uses selected wavelengths of low energy light rapidly pulsed onto the skin (180 times a minute) to gently heat the target hair follicles to cause terminal damage directly to the hair's chromophores and prevent hair regrowth. Endorsed by leading medical experts the SHR technology is safe and highly effective in the treatment of permanent hair reduction.

HOW LONG DOES IT TAKE?

Using revolutionary e-motion delivery a hair no more treatment is completed in minutes. The treatment applicator is swept back and forth repeatedly across the designated area whilst rapid pulses of low energy light are pulsed into the skin ensuring full coverage and effective treatment.

DOES IT HURT?

Unlike traditional laser or IPL, using high energy levels that may cause discomfort and pain, a hair no more treatment is gentle and comfortable, resulting in a pleasant warming of the skin. Active skin cooling through the applicator capable of -4°C ensures complete comfort even in the most sensitive areas.

WHO IS IT SUITABLE FOR?

A hair no more treatment can be performed on all skin types. The SHR technology of low energy pulses allows for the successful treatment in both dark and fair skin types alike, even tanned skin. Suitable for both women and men, hair no more is the answer!

HOW MANY TREATMENTS WILL I NEED?

Each hair no more treatment effects approximately 30% of the hair within the target area. We recommend a minimum of 6 treatments, with some hair types requiring more. The average for a successful program is 8 treatments

PRICES

MICRO • Top lip, chin, cheek	per session £19
SMALL • Bikini, underarms, half face	per session £39
MEDIUM • Brazilian, arms, half legs, full face	per session £69
LARGE • Full legs, back, chest and abs, Hollywood	per session £99

Lash Lifting is the perfect natural solution to longer looking lashes. If like me you are looking for a healthier alternative to lash extensions then this is the treatment for you. The majority of my clients don't actually realise how long their lashes are due to the fact that they point downwards instead of lifting up and often don't have much definition as the ends have faded or their own lashes are light. LVL is a unique system by Nouveau lashes that in just 40 mins lifts your own lashes for up to 6-8 weeks whilst also tinting them to look thicker. Perfect for holidays and also great for difficult lashes that need separating out

LVL LASHES PRICES

LVL ENHANCE (INCLUDES LASH TINT)

£45

OTHER LASH TREATMENTS:

REGULAR LASH TINT

£15

NB Only available when purchasing another treatment.

HD BROWS

HIGH DEFINITION BEAUTY

Trained to the highest level of Master Stylist, I am a big advocate of a more natural looking brow that looks softer and prettier for you. HD Brows is a bespoke eyebrow treatment I have been doing since its launch and have seen trends change over the years significantly. It's so much more than a standard eyebrow tint and wax, creating a long term shape using a combination of tinting, waxing, threading and tweezing with existing hairs that has maybe been overgrown, overplucked or simply shaped incorrectly previously. With my experience as a brow artist and your dream brow goal, we work together to create your perfect look. I would recommend treatments 4-6 weeks as continuity is most definitely key!

HD BROWS PRICES

HD BROWS (THE FULL SEVEN-STEP TREATMENT) **£30**

BROW QUEEN LAMINATION **£50**

GLAM

As an experienced Make up Artist I love nothing better than creating the complete package and allowing clients the chance to see themselves in a whole new way. For the majority of us we don't necessarily want a full on 'overdone' make up look but still want to feel sexy and confident. Working alongside some of the industry's top make up artists , getting celebs red carpet ready and creating make up for shows and photoshoots over the years has been an integral part of my career.

So many people I find are so unconfident or just don't know how to apply make up correctly or what to use. Using high quality brands such as Nars, Mac, Laura Mercier, Charlotte Tilbury, Huda beauty and Fenty the Glam part of my job is when I get to really see my clients confidence come to life. My style is radiant skin, sexy eyes and beautiful contouring.

Offering not just make up application but lessons for yourself to learn new skills , this is where the magic really happens!

We all need a bit of GLAM in our lives!

PRICES

PROFESSIONAL MAKE-UP APPLICATION **£50**
(INC STRIP LASHES)

MAKE-UP LESSON **FROM £95**

Not sure how to apply your own make up and if what's in your make up bag is right for you? Let me show you simple, easy ways to help give you a basic application method that works for you.

Lessons range from 1 hour up to 2 hrs!

WEDDING PACKAGES

Your wedding day is one of the most personal and important days of your life and the memories and emotions of the day are irreplaceable. As an experienced make up artist I understand the importance of how difficult it may be (and often the last thing not the first) to choose someone else to do your wedding make up! However this is my speciality and you can rest assured you are in very capable hands!

Myself and my team pride ourselves by being able to create a bespoke and specialist service for you and your bridal party for all your hair and beauty needs prior to the wedding and on the day!

Your face is the thing that is seen and photographed the most on your big day, therefore is well worth the investment . Whether you require us at your venue (in the UK or abroad) in the comfort of your home or in the luxury of my beauty studio we are there for you 100%.

Choose your beauty package from below or have me customise a pre beauty programme to suit you, your bridal party and your budget.

'On your wedding day you should look like yourself at your most beautiful' x

PRP TREATMENTS

WHAT IS THE VAMPIRE FACELIFT?

The Vampire Facelift is a technique involving a collection of your own blood and separating its components through a centrifuge that turns your platelets into plasma. We then inject your plasma into the targeted area which will help to stimulate new cell growth and stimulate tissue regeneration which will improve your complexion and skin texture. We then micro-needle the rest of the plasma into your full face which is great for skin hydration and restoring a youthful and healthy glow.

SINGLE TREATMENT INCLUDING LED LIGHT THERAPY

£150

PLATELET RICH PLASMA (PRP)

You will see results from a single treatment, but we recommend a course of four treatments for best results.

BENEFITS

Fantastic for skin rejuvenation • Stimulates new cell growth
Improves skin tone and texture • Improves skin complexion

HOW LONG DOES IT TAKE? Procedures usually take from 60 - 90 minutes using topical numbing cream anaesthetic, and results can be seen in a few days. Potential effects are swelling and bruising lasting 48 - 72 hours, however downtime is minimal and customers can be back to work the next day. You will see results from a single treatment, but a course of three treatments every 4 weeks is recommended.

PRP HAIRLOSS TREATMENT

Suitable for Men and Women

What is PRP therapy for hair loss? Platelets within blood plasma contain a large number of growth factors. These growth factors stimulate often dormant hair follicles and also produce an increased amount of collagen. This in turn thickens the hair over a period of time resulting in an increase of both the amount and thickness of hair. PRP therapy involves taking a blood sample and using a centrifuse machine to separate the platelets from the blood.

The platelets are then injected into the scalp where hair thinning and balding is occurring. This can be done in conjunction with microneedling to ensure maximum results. Used as a stand alone treatment or linked with any pre and post hair transplant procedure. To ensure as little discomfort as possible a numbing cream is applied prior and hair like needles are used during the procedure to minimise pain. Once treatment is complete, you can return to work immediately as no sedation is required.

A course of treatments are crucial to your success with the procedure , due to the nature of the hair growth cycle, this will be discussed with you during your initial consultation and a treatment plan put in place.

Whether you are having the treatment to regenerate existing hair, after cancer treatment or perhaps together with a hair transplant process, you can be assured my clinic is very discreet and private for you.
